

DEMOCRATIC CANDIDATES		ACCESSIBILITY AND BASIC BENEFITS							
		We must make sure every person in America has health coverage to assure affordable access to the health care services they need.		We must let the public have a larger role in designing and managing a new health care system		We should have one set of basic health benefits for all our people.		Basic health benefits should include coverage for any licensed health care professional, as long as they are certified and licensed by the state and by their profession.

Hillary Clinton		<ul style="list-style-type: none"> • Coverage mandated • Make coverage affordable with income-related tax subsidies, limited premiums, and small business tax credit • Private and public plan options would be available to individuals through a new Health Choices Menu • Strengthen Medicaid and SCHIP programs 		<ul style="list-style-type: none"> • No provision 		<ul style="list-style-type: none"> • Basic benefits are at least as good as the Federal Employees Health Benefit Program (FEHBP), which includes mental health parity and usually dental coverage. 		<ul style="list-style-type: none"> • No provision 	
Barack Obama		<ul style="list-style-type: none"> • Establish a new public insurance program and National Health Insurance Exchange for private insurance plans. • Make coverage affordable by providing sliding-scale health insurance subsidy based on income. • Require all employers to contribute towards health coverage for their employees or towards the cost of the public plan • Mandate all children have health care coverage • Expand eligibility for the Medicaid and SCHIP programs 		<ul style="list-style-type: none"> • No provision 		<ul style="list-style-type: none"> • Includes new insurance plan available to everyone includes comprehensive benefits similar to the FEHBP. 		<ul style="list-style-type: none"> • No provision 	

*CodeBlueNow! commissioned The Gilmore Research Group to conduct identical telephone surveys to registered voters in both Iowa and Washington State to obtain their opinions regarding health care in the United States. 601 respondents answered in Iowa and 600 answered in Washington. The maximum margin of error for a survey of this size is ± 4.0 percentage points at the 95% level of confidence.

RESPONSIBILITY

	Employers should continue to play the major role in providing health insurance for their employees.	Health insurance should be a personal responsibility like automobile insurance.	Health insurance should be a shared responsibility of individuals, employers and government	Health care is a community responsibility for public safety, like the fire department, or police.	Health insurance should be paid for by tax dollars and managed by local, state or federal government.
	<u>Wash.</u> 57% (340) <u>Iowa</u> 58% (349)	<u>Wash.</u> 35% (207) <u>Iowa</u> 41% (247)	<u>Wash.</u> 59% (353) <u>Iowa</u> 62% (377)	<u>Wash.</u> 50% (300) <u>Iowa</u> 47% (284)	<u>Wash.</u> 31% (184) <u>Iowa</u> 25% (153)
Hillary Clinton	<ul style="list-style-type: none"> • Employers required to contribute to health coverage. • Large firms required to provide health insurance or contribute to the cost of the system and small businesses offered tax incentives to continue or begin to offer coverage. 	<ul style="list-style-type: none"> • Health care is a shared responsibility between individuals, employers, and government. 	<ul style="list-style-type: none"> • Shared responsibility between individuals, employers, government, providers, and insurance and drug companies. 	<ul style="list-style-type: none"> • Health care is a shared responsibility between individuals, employers, and government. 	<ul style="list-style-type: none"> • Health coverage not exclusively paid for through taxes. • Allows for a mix of public and private insurance providers.
Barack Obama	<ul style="list-style-type: none"> • Employers that do not offer or make a meaningful contribution to the cost of quality health coverage for their employees are required to contribute a percentage of payroll toward the costs of the new public plan. • Small employers that meet certain revenue thresholds will be exempt from contribution. 	<ul style="list-style-type: none"> • Health care is a shared responsibility between individuals, employers, and government. 	<ul style="list-style-type: none"> • Shared responsibility among individuals and families, school systems, employers, the medical and public health workforce, and federal and state and local governments. 	<ul style="list-style-type: none"> • Health care is a shared responsibility between individuals, employers, and government. 	<ul style="list-style-type: none"> • Health coverage not exclusively paid for through taxes. • Allows for a mix of public and private insurance providers.

The maximum margin of error for a survey of this size is ± 4.0 percentage points at the 95% level of confidence.

QUALITY, TRANSPARENCY AND ACCOUNTABILITY

	Health care services should stress preventing disease rather than relying on high technology cures.	We need the same kind of public reporting and accountability in health care that we have in public companies, such as water and power companies, so we know where the money comes from, how the money is spent, and why.	There should be one organization that oversees all our nation's health care and evaluates the effectiveness of all health care services, rather than having the numerous agencies that now exist.	We need to have uniform standards and guidelines that health care professionals can use to make sure we receive the most effective care.	Health care professionals should be required to give patients information about the costs and benefits of treatments and services so people can make good choices.
	<u>Wash.</u> 68% (406) <u>Iowa</u> 69% (416)	<u>Wash.</u> 76% (454) <u>Iowa</u> 65% (452)	<u>Wash.</u> 40% (240) <u>Iowa</u> 42% (251)	<u>Wash.</u> 72% (435) <u>Iowa</u> 51% (308)	<u>Wash.</u> 87% (516) <u>Iowa</u> 84% (505)
Hillary Clinton	<ul style="list-style-type: none"> Insurers must cover high-priority preventive services that experts agree are proven and effective. 	<ul style="list-style-type: none"> Create an independent "Best Practices" institute that would inform patients, providers, and payers on what works in health care and how treatments compare to one another. 	<ul style="list-style-type: none"> No provision 	<ul style="list-style-type: none"> Improve quality through physician-driven certification programs designed to reduce variation in the cost and quality of care from state to state and promote continuing education about latest advances in care and procedures. 	<ul style="list-style-type: none"> Create a web-based quality database that allows patients to compare and choose physicians, hospitals and other various health care delivery systems.
Barack Obama	<ul style="list-style-type: none"> Promote prevention and investments in Biomedical research, medical education and training to improve the prevention, early detection and treatment of diseases. 	<ul style="list-style-type: none"> Require hospitals and providers to collect and publicly report measures of health care costs and quality. Require health plans to disclose the percentage of premiums that actually goes to paying for patient care as opposed to administrative costs. 	<ul style="list-style-type: none"> No provision 	<ul style="list-style-type: none"> Establish an independent institute to guide reviews and research on comparative effectiveness. 	<ul style="list-style-type: none"> Hospitals and providers required to collect and publicly report measures of health care costs and quality.
